These Apps are all designed to make your iPhone more useful, and theyâre all paid. There is no paid version of a free app. You pay for the app, and at least some of these are actually worth their money.

Others are just free, but give you something to play with, or a taste of something else. Zombies, Run!

Zombies, Run! is a new mobile game where your character is a survivor running through a zombie apocalypse. Your character is equipped with a special device that helps you keep your footing. This device is called a Zombie, and along with your character you will

---

keep your Zombie and collect supplies. Don't forget your Zombie! The main mechanic of the game is that you run, but at some point you will find a Zombie. If you encounter a Zombie, you will have a limited amount of time to get away before it becomes active, eats you, and starts running in the wrong direction. When you and your Zombie become active, you are given a limited amount of time to collect as many resources as you can in the amount of time you are allotted. If you run out of time or the Zombie runs out of time, the game is over and you have lost. The device that you collect supplies from is called a Beacon. You will

---

see every beacon you find in the game, including how many resources the beacon contains. Beacons can be found as a part of the story and in the real world. As your character runs through the city, you will collect resources by simply running. If you encounter zombies, you will need to throw supplies at them and avoid them when they become active. You can also pick up trash as you go. Youâll also need to make sure that you come across as many Beacons as possible, as you will want to make sure that you have enough supplies to be able to complete your missions. As you complete missions, you will earn

---

more money. This money is used to upgrade your Zombie and yourself.

There are 6 different upgrades available. You will want to get the upgrades that give you more movement, or that will help you avoid zombies. A: This is what you want: What's New in 5.0 New Proximity Awareness Level The Proximity Awareness Level is a new feature that lets you define which zone an actor can see. You
